

## Patients are raving about STb Social 6

*"It was a big decision to wear braces for the first time as an adult...After investigating my alternatives, my doctor told me about a new, invisible treatment, STb Social 6...I love my smile now, and the treatment was completed in just 12 weeks."*

– Patient B.O.

*"STb Social 6 gave me back my great smile...After wearing braces as a teenager, my teeth moved...I didn't want metal braces on the outside of my teeth again...STb Social 6 was unnoticeable, comfortable and fast."*

– Patient H.P.

## Your Ideal Smile Makeover

INVISIBLE. FAST.  
COMFORTABLE AND CONVENIENT.

**STb** *social 6*  
Light Lingual System™

## Getting Started

During your initial consultation we'll evaluate your unique orthodontic profile. Most patients with mild to moderate crowding and spacing issues affecting their front teeth are excellent candidates for this discreet treatment.

Placing the braces on your teeth will require a very short appointment, followed by checkups every 4 to 5 weeks. You're closer than ever to having that beautiful smile you've always dreamed about. Ask us about STb Social 6 braces today!

INVISIBLE. FAST.

## Beautiful Smiles Made Easy

In just a few months you can have the radiant, confident smile you've always wanted, or once had, without anyone knowing you're in treatment.

We're proud to offer STb Social 6 lingual braces, the "truly invisible" smile makeover for patients with minor to moderate crowding or spacing problems. This fast and easy aesthetic treatment is ideal for patients who don't want to wear aligners for up to two years or longer.

STb Social 6 was designed to provide fast, discreet correction for the six upper and lower front teeth, which are commonly referred to as the "Social 6."

## The Truly Invisible Aligner Alternative

### Invisible

- We place STb Social 6 braces on the inside surface of your teeth (lingual) so they will move into alignment without anyone knowing you're in treatment.

### Fast

- With the treatment efficiency that only real braces provide, STb Social 6 can quickly straighten your teeth, usually within a few months. This is dramatically faster than aligner treatment that may take up to two years or longer to complete.
- STb treatment won't interfere with your schedule, most cases require just 2-5 office visits.

### Comfortable

- STb Social 6 braces rely on light, hi-tech wires to reduce the pressure on your teeth, allowing them to move gently into proper alignment.
- Designed for maximum comfort, STb braces allow you to speak clearly and confidently throughout treatment.

### Convenient

- STb Social 6 is ideal for today's busy lifestyles. You'll eat, drink and play sports without removing aligners or worrying about misplacing them.
